PayBridge

A simple and secure solution for automating online payments without a card machine.

Replace your desktop credit card machine with a virtual, online version. PayBridge is a user-friendly and secure solution for processing in-house and online payments.

Automatic processing saves time.

- Deposits are automatically deducted from the guest's credit card before arrival (according to your deposit policy).
- Virtual cards are automatically processed - no need to find card details, remind yourself to swipe on a certain day or work out which amount to enter.
- No manual credit card payments needed, lessening your card security risk significantly.

Secure environment.

The credit card details are always stored securely in a vault after processing. You will not have the security risk of storing these numbers.

3D Secure Link.

- While not all channels can process 3D Secure transactions, we provide you with:
- Automatic redirect to 3D Secure payments from your NightsBridge booking form.
- 3D Secure link for you to use for telephonic bookings.

Training and support.

- Comprehensive training done on activation.
- Full support team available for queries every step of the way (telephone/email/online chat).

Requirements

To qualify for PayBridge you will need:

- A South African bank account.
- Your currency set as ZAR.
- A check-in procedure that would include getting a signature on the PayBridge slip.
