

PayBridge

A simple and secure solution for automating online payments without a card machine.

Replace your desktop credit card machine with a virtual, online version. PayBridge is a user-friendly and secure solution for processing online and offline payments.

Automatic processing saves time.

- Deposits are automatically deducted from the guest's credit card before arrival (according to your deposit policy).
- Virtual cards are automatically processed - no need to find card details, remind yourself to swipe on a certain day or work out which amount to enter.
- No manual credit card payments needed, lessening your card security risk significantly.

Secure environment.

The credit card details are always stored securely in a vault after processing. You will not have the security risk of storing these numbers.

3D Secure Link.

While not all channels can process 3D Secure transactions, we provide you with:

- Automatic redirect to 3D Secure payments from your NightsBridge booking form.
- 3D Secure link for you to use for telephonic bookings.

Training and support.

- Comprehensive training done on activation.
- Full support team available for queries every step of the way (telephone/email/online chat).

Requirements

To qualify for PayBridge:

- Your property must be located in South Africa
- You must have a South African bank account.
- Your currency must be set in ZAR.
- You must have a check-in procedure that includes getting a signature on the PayBridge slip.
