Pay 3D

A simple and secure solution for automating online payments without a card machine or check-in process.

Pay 3D needs a little more manual work but reduces fraud and ensures that all transactions are 3D Secure only.

No Physical Meet-And-Greet At The Property Is Needed.

As only 3D Secure transactions are processed, there is no need to verify the cardholder with the card present. They will have confirmed who they are by authenticating the transaction (OTP or bank app).

No Chargebacks For Fraud.

There is no way fraudulent transactions can go through without the owner of the card knowing. It means a bit of manual work but this is a fraud-free service.

Cheaper Credit Card Fees.

Banks prefer 3D Secure transactions (as its safer for them too), so they reward you for using 3D Secure by offering lower card fees per transaction.

Training & Support.

- Comprehensive training done on activation.
- Full support team available for queries every step of the way (telephone/online chat).
